Before installing and using the product, please carefully read this User Manual to guarantee correct usage and keep it secure for future reference.

Features

Compact Design: Engineered for portability and space efficiency.

LED Battery Indicator: Displays battery level through LED lights.

Fast Charging: Rapidly charges devices, saving time.

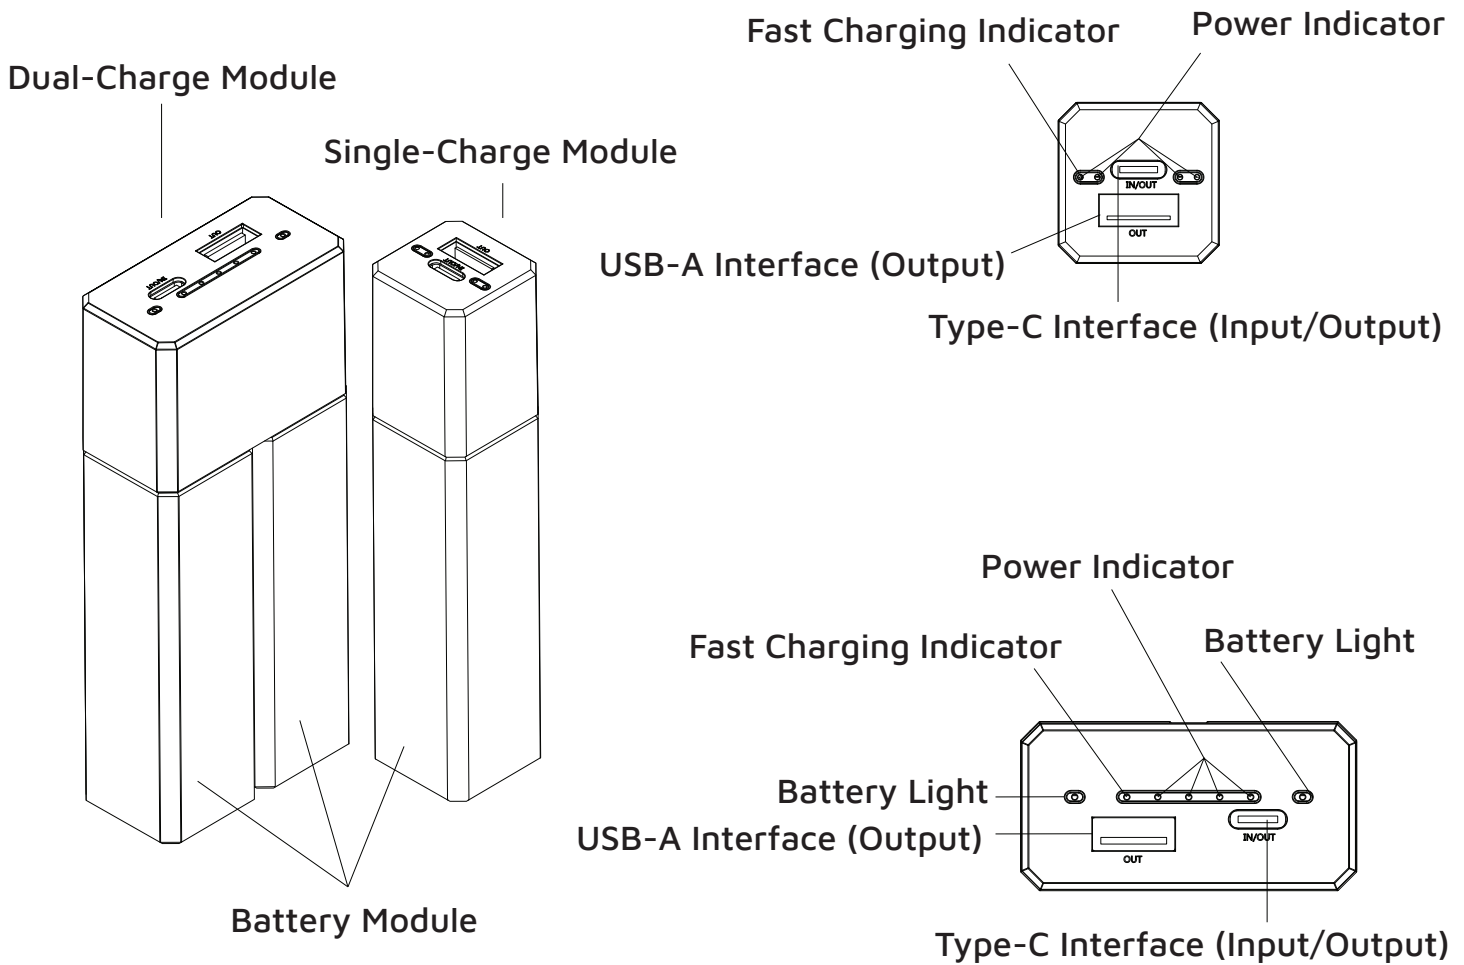

Strong Magnetic Attachment: Features powerful magnets for secure attachment.

PC+ABS Alloy VO Finish: Utilizes a durable and fire-resistant polycarbonate and ABS blend.

Product Overview

The Power Bank is compatible with all devices that use Lightning and Type-C connectors, providing seamless charging for an extensive array of smartphones, tablets, and other electronic gadgets. The control module and the battery module are designed to automatically detect charging and discharging upon connection. The power status is promptly displayed 3 to 5 seconds after the control and battery modules are either disconnected or reconnected via the data cable. This product is equipped with various protection mechanisms adept at managing conditions such as overcharging, over-discharging, and short circuits, ensuring robust protection for rechargeable batteries and digital devices. Featuring a built-in intelligent charge controller, this device is compatible with a wide range of mobile phones and digital devices. It incorporates a high-quality lithium-ion battery and an advanced charge/discharge chip for superior performance.

Schematic View

Indicator Light Guide

Single-Charge Module: This configuration includes five indicators. Four blue indicators each represent 25 % of the battery power. The green indicator signifies the fast-charge mode.

Dual-Charge Module: This configuration consists of seven indicators. The middle four blue indicators each represent 25 % of the battery power. The green indicator signifies the fast-charge mode. Additionally, there is one blue indicator on each side that provides guidance on accessing the battery module.

Tips

Improper use may lead to battery failure, serious overheating, and even fire or explosion. To prevent harm to yourself and your property, please adhere strictly to the following guidelines for safe usage of this product:

- 1.** Always use a charger that complies with local safety standards to charge this product and avoid potential accidents.
- 2.** Do not place this product in locations that might impede its heat dissipation, such as under clothing, pillows, bedding, or covered by other miscellaneous items, while it is charging or while charging other devices.
- 3.** Avoid disassembling, impacting, squeezing, puncturing, or short-circuiting this product.
- 4.** Do not immerse it in water, expose it to fire (including proximity to stoves, heaters, and other heat sources), or place it in hazardous environments.
- 5.** Do not place in environments with temperatures higher than 60°C (140°F).
- 6.** If the product is seriously damaged, such as being dropped, shaken vigorously, exposed to liquids, bulging, deformed, or showing a significant decrease in capacity, please STOP using immediately and dispose of it properly.
- 7.** Dispose of this battery and any other accessories in accordance with local regulations.
- 8.** This product should not be considered and disposed of as a household waste.
- 9.** Improper disposal of the battery may lead to the risk of an explosion.
- 10.** This product contains a non-removable built-in battery. It is strictly prohibited to disassemble this product.
- 11.** Please do not attempt to replace the battery yourself as it may cause damage or other hazards.
- 12.** Ensure that this product is kept out of the reach of children to prevent accidents.

Specifications

Product Name	Levelo SWAPCELL 2 in 1 Portable Carbon Power Bank 14400mAh
SKU	LVLSCPBCBK
Capacity	4800mAh x3
Battery Type	Lithium-ion
USB-A Output	4.5V/5A, 5V/4.5A, 9V/2A, 12V/1.5A (22.5W Max.)
Type-C Output	5V/3A, 9V/2.22A, 12V/1.67A (20W Max.)
Type-C Input	5V/3A, 9V/2A, 12.1V/1.5A (18W Max.)
Charging Interface	USB-A / Type-C

Cautions

1. Please fully charge the product before first use.
2. When charging this product or using it to charge other devices, ensure you use a qualified charger and charging cable that meet the specified requirements.
3. Always have someone present when charging this product or when it is used to charge other devices. Disconnect the charger and charging cable after use or if you are leaving the product unattended for an extended period.
4. Disconnect the charger and charging cable when you finish charging or if you will not be using the product for a long time.
5. If the product does not show any power indication, it may be in a protection state. In such cases, connect it to the charger to check for

recovery or inspect the metal contact points on top of the battery module for any foreign matter and clean if necessary.

6. If the product will not be used for a long period, maintain the battery charge level at approximately 50 % and store in a cool, dry environment to optimize battery life.

7. Avoid storing the product in a fully charged or completely discharged state for extended periods to preserve battery life.

Warranty

Products procured directly from the **Levelo** website or physical store comes with a 24-month warranty. **Levelo** products purchased from any of our authorized dealers are guaranteed with a one-year warranty. If you wish to extend this warranty, you'll need to go to our website at **<https://levelobrand.com/warranty>** and fill out the necessary form, making sure to include your personal information and a photo of the product. After your request has been evaluated and accepted, we'll send you an email notification to affirm the extension of your product's warranty.
