Introduction

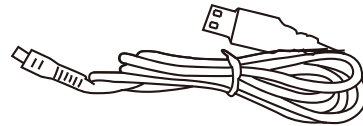

Thank you for purchasing the waterless aroma diffuser. This device utilizes advanced cold diffusion technology, which means there is no need to add water or heat. It atomizes essential oils into fine particles ranging from 1 to 3 nanometers in size, ensuring that the oil's integrity is preserved. This method allows the body to absorb the aromatic molecules more efficiently, potentially enhancing your health, improving sleep quality, and alleviating stress.

Instructions for Use

1. Gently press the nozzle. The empty bottle attached to the nozzle will pop up automatically.

2. Detach the bottle from the nozzle, and refill it with your preferred essential oil.

3. Reattach the bottle with the nozzle to the diffuser. Ensure that the alignment marks on the nozzle and the diffuser are properly matched.

Note: Pay close attention to ensure that the alignment marks (▲) on the unit and the (▲) marks on nozzle and the diffuser. Once properly installed, the (▲) marks should align with each other.

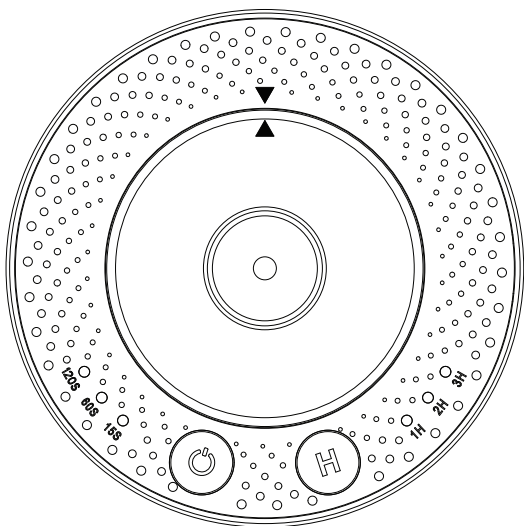

4. To turn the diffuser on, press and hold the on/off button (⏻) for two seconds. The diffuser will activate, and the on/off button (⏻) will

light up green.

5. To turn the diffuser off, press and hold the on/off button () for two seconds again.

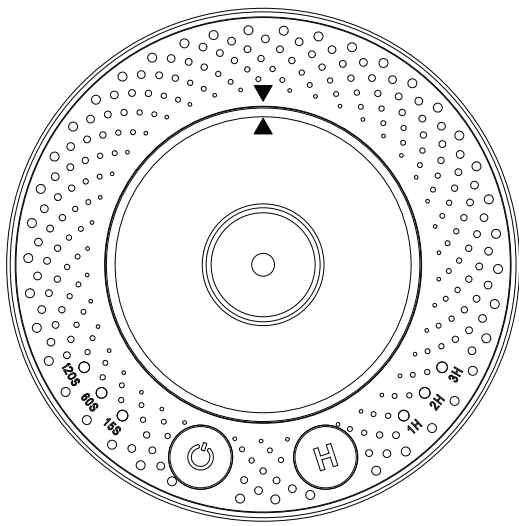

Note: When you turn on the diffuser for the first time, it is set to intermittently spray every 15 seconds and includes an 8-hour timer for automatic shutdown. The indicator light will be green during operation.

6. After turning on the diffuser, the default spray interval is set at 15 seconds. To change the intermittent spray timing, lightly tap the on/off button. You can select from 60 ,15, or 120 seconds for the spray interval. The indicator light will remain green to show the diffuser is in operation.

Warning

1. After installing and using the product, do not turn or tilt it. Otherwise, the oil may drain and damage the air pump, resulting in permanent damage to the product.
2. Do not modify or disassemble this product, as doing so will void the warranty.
3. Do not use this product when temperatures are too high (above 50°C) or too low (below 10°C).
4. If not in use for an extended period, remove the nozzle and diffuser and store them separately.
5. Always turn off the power switch when changing the oil.
6. Keep out of reach of children and pets.

FAQ

1. How long does it take to fully charge the diffuser?

Answer: Approximately 2 to 3 hours.

2. What type of essential oil should be used with this diffuser?

Answer: Use pure botanical essential oils or high-volatility oils without impurities.

3. What if I can't see the mist when diffusing?

Answer:

a. This is normal. The diffuser has a function to adjust the mist output to conserve essential oil.

b. The atomizing particles are only 1 to 3 nanometers in scale, making them difficult to see with the naked eye.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.
